3.2 An “amateur” is a rider who has never previously raced in the **ELITE** or **U23** categories according to PZKOl licenses.

3.3 Participation requires correct registration of an individual rider account in the online registration system available at:

<https://zapisy.pomerania-sports.pl>

3.4 The participant is obliged to:

- correctly complete the required online declarations,
 - enter correct and up-to-date rider data,
 - enter a current **UCI** and **PZKOl** license number in the registration system*,
 - accept these Race Regulations,
 - pay the entry fee in accordance with the current fee table.
- *only for riders who wish to compete in the Polish National Gravel Cycling Championships

3.5 The race pack is collected at the Race Office upon presenting an individual QR code sent by email to the address provided during registration.

3.6 Minors aged **14–17** (born 2009–2012) may participate **only in the 50 km distance**.

Admission to the start requires submitting at the Race Office a **written consent** of a parent or legal guardian (form available for download from the race website). Minors without a PZKOl or UCI license must provide a scan of valid personal accident insurance (NNW) covering participation in cycling competitions.

The Organizer reserves the right to refuse the start to a minor if the Organizer considers that the course conditions or difficulty level may endanger the participant's safety.

3.7 Minor participants – Junior race:

Participation requires submitting at the Race Office written consent from a parent or legal guardian (form available from the race website). The race pack may be collected only by the parent/legal guardian, who declares there are no health contraindications for the minor's participation and undertakes to supervise the minor during the event and assumes full responsibility for them.

3.8 Adult participants take part at their own risk, declaring no health contraindications to participate and accepting these Regulations.

3.9 Each registered participant receives an individual bib number with an assigned electronic timing chip. The bib number:

- must be attached to the front of the bicycle handlebar,
- must be legible and visible to officials,
- must not be wrapped around the handlebar — this may prevent chip reading at timing points and the finish line.

3.10 Each participant must wear a cycling helmet that meets applicable safety standards throughout the race.

3.11 A rider is registered in the electronic timing system at the start for measuring their individual result on the selected route. The distance must be declared during registration.

3.12 Changing the selected distance (150 km / 100 km / 50 km) is possible no later than **10 days before the event** and requires individual agreement with the Organizer by email: kontakt@pomeraniagrwl.pl.
